

Hello

MY NAME IS KATHRYN

Hearing the parents comments on the transformation of the children gives me a sense of relief and satisfaction that as one we can help our children be a success .

ABOUT ME

Hello, my name is Kathryn. I am a single mum of three. I have been a Home Educator for about 3-4 years now. I started off with The Pasifika Home-based ECE Network and now I am with Montessori at Home.

MY GOALS

I have four children in my care. I have always believed that our children's first learning begins at home. To have the opportunity to showcase this experience in my home is very satisfying to me. I see that children learn more at home, with experience of a daily routine. They learn to be independent, to help themselves with pouring their own water if thirsty, wiping their own nose, toilet training and have their own personality in knowing what they want.

They will follow my lead and do what they see me doing so I prepare the environment for them and through encouragement and observation from me, they learn and make their own choices.

I as an educator will be as one with the parents in endorsing the skills their child has learnt while in my care. Hearing the parents comments on the transformation of the children gives me a sense of relief and satisfaction that as one we can help our children be a success .

Home is where the Heart is
